LAMINATED DOORS

Splice Laminates Doors are exceptionally hardwearing, meeting the requirements of heavy traffic and ering a high resistance to abrasion, impact and scratches. Splice laminates Doors are available in all the popular timber woodgrains but also provide the designer with a unique opportunity to introduce innovative finishes and textures that aren't available naturally. As standard each door is manufactured from a high performance solid core that has been successfully tested to severe duty. Lightweight and High Performance Solid Timber Cores are also available. Each door leaf is lipped to all edges as standard, with the laminate concealing the hardwood lippings. Exposed lippings are available as an option.
